

[illegible]

Hand-drawn diagram of a trapezoid with its area calculated using the formula  $A = \frac{1}{2} \cdot (b_1 + b_2) \cdot h$ . The top base is 23.5, the bottom base is 44.8, and the height is 9. The area is calculated as  $\frac{1}{2} \cdot (23.5 + 44.8) \cdot 9 = 285.6$ .
